

## EZiSYSTEM Product Familiarisation

*"Informative and interesting. Not too technical that it was over my head"*

C. Baker, Hy-RAM Engineering

This training course works well as a "Tool Box Talk". If you are looking for a course that will familiarise users about how to use the EZiSYSTEM cable locating equipment, then this is the course for you.

### Theoretical aspects include:

- EZiSYSTEM range
- Product Use
- Control layout

### Practical aspects include:

- Using an EZiCAT in power mode
- Using an EZiCAT in radio mode
- Using an EZiCAT in active modes
- Using an EZiTEX in induction mode
- Using the EZiTEX in connection mode
- Depth estimation

**Duration:** Approx 2 hours

**Location:** Conducted at Cable Detection's offices in Stoke-on-Trent. For larger groups the course can be held at your site. Ask for more details
